

# ISO 50001 facilitators workshop

## Nationwide Energy Management System Capacity Building Initiative

Chennai  
10th & 11th January 2012

### Organisers

SEEM is a National Professional Body of Certified Energy Auditors and Managers in India active in the field of professional training with footprints in 25 states. SEEM had been in the fore front to keep the professional community of Certified Energy Auditors and Managers ahead in the learning curve as to developments in sustainable energy.

### Knowledge Partners

Intertek Moody is an international conglomerate created by merging of two technical giants M/s. Intertek and M/s. Moody International each having over a century's standing in the field of certification, technical validation and inspection services.

### Join the Nation wide EnMS capacity building Initiative and build competence:

A comprehensive insight to energy management system and to act as a consultant or internal auditor and to enhance knowledge of documentation/procedure

When you work towards energy certification, you can systematically deal with your business's impacts on the environment and identify cost effective alternatives. ISO 50001 can help your organization/client to develop processes to lower energy and raw materials use, reduce waste and pollution, and mitigate risks of accidents and emergency situations. Your operation will not only be energy efficient, it will also be more profitable.

### Open doors to new markets.

ISO 50001 comes from the well known global standards lineage and symbolizes energy responsibility all over the world. Whether you are a small business or a global corporation, ISO50001 certification sends a clear message wherever you may do business. Certification increases confidence in your company, enhancing your competitiveness in all the world's local marketplaces.

### Opportunity for energy professionals

A gainful engagement opportunity for energy auditors

Be ahead on the learning curve

Be a change agent than a bewildered spectator to coming changes in business/industry management scene

Effectively contribute to nation's strife towards clean development

Help industry /institutions save on energy spending

Get ready to usher in a prudent energy culture in the country

# ISO50001 facilitator's workshop series on Energy Management System

Dear Energy Professionals,

Society of Energy Engineers and Managers (SEEM) the National Professional Body of CEAs and CEMs, in line with its avowed policy of professional uplift through training is announcing its latest Series of two day workshops in 20 locations in 14 states under the National initiative of Capacity Building in ISO 50001 – Energy Management System Standards. This was launched in Delhi on August 29, 2011. The Energy professionals will be given thorough understanding of the ISO 50001 standards and will be empanelled as a facilitator with SEEM – Intertek Moody Consortium for campaigning and implementation of the standard in industries, institutions and enterprises. These empanelled participants will have opportunity to undertake lead auditor course in ISO 50001 with priority and fee discount. For details and updates please visit our website [www.energyprofessional.in](http://www.energyprofessional.in)
